Inspection

Type: Routine

Date: 11 August 2004

PRAIRIE DU SAC, WI 53578

Sec. 2.131(b)(1)

Handling of animals.

During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public. Licensee has a sign advertising the Playtime with one, two, or three cats at his TRA site at Christmas Mountain in Wisconsin Dells. This tiger cub and two lion cubs were the only animals available to meet this advertisement objective. Licensee also acknowledges that Thunder, a fifteen old week tiger cub, is currently being used for direct public contact. This animal ~~was~~ observed by this inspector and Inspector Chad Moore engaged in aggressive play like behavior with one of its handlers. Thunder bit and pulled at the handler's sweatshirt. The use of this animal for direct public contact does not protect the public from danger and ultimately does not protect the tiger cub from danger. This animal must not be used for direct public contact and no other animal shall be used that poses a safety hazard to the public. To be corrected immediately. Number of animals affected: 01.

This inspection is being conducted at Christmas Mountain Village in Wisconsin Dells, Wisconsin.

End of report.
